10	you returning members, as well as any new members	10	which is lpaboat@gmail.com. It makes it easier for
11	who we might have. This is Nikki Wilson, she's our	11	us to track it, and we'll add you to the bottom of

13	A few things we have done differently this
14	year. At the suggestion of the dock company, we
15	added additional downriggers at the end of the
16	pontoon slips, so it's going to feel more secure.
17	And part of doing that, we have decided to not put
18	tie-back poles at the pontoon boats. So we're going
19	to try it this year and see how it works. So
20	anybody that has a pontoon boat, please give us your
21	feedback. I think Steve, you already have
22	MR. BALAGNA: Yeah, I have a comment on
23	it. Do you want me to say it now?
24	MR. SHAVER: Sure, go ahead.

19Moving again down the right-hand side of20the handout, the first bolded item is we'd like to21propose accepting credit cards at the beach this22year. I have done some research, and I think it23would be fairly inexpensive. We'd be able to reduce24the amount of cash flowing through the beach and25have better accountability for when people are

MS. PETERS: The other thought, too, is because at the beach there is a lot of one-dollar bills passing along that we're actually charged based on the dollar bills we're depositing as opposed to just a deposit. So it would simplify things for Nikki, and then having multiple checks, and things get wet. This way everything would be sealed up and we would have a waterproof piece of

MR. BAUSS: Is that \$1,000 expected to be yearly, or is that just the initial technology? MS. WILSON: No, that would be the initial.

2	MR. BALAGNA: What happened last year,	2	looking at the income statement.
3	either Ron Graham advised you and you failed to take	3	MR. PARROTINO: It's hard to tell you what
4	his advice, or he didn't advise you that you had to	4	cash is generated at the beach because you have to
5	amend your articles of incorporation before you	5	understand the beach staff is collecting money, it's

7	could amend the bylaws. There was a huge mistake	7	rolled into launch fees, people come down and pay
	that was made. So either he gave you the correct advice and you didn't take it, or he screwed up.		for that, they pay for parties, et cetera.
8	a ' A	8	MS. WILSON: I would say several thousand
	MS. PETERS: I don't think that it was a		dollars a year. Like John said, we don't
10	screwup. I really honestly believe what we asked	10	differentiate in how I track the budget, like what
11	Ron to do was amend our bylaws and that is what we	11	is a check or cash.
12	spent a lot of time focusing on. We now have of all	12	MR. GABLE: Maybe I'm crazy, I'm just
13	the documents all organized, and the whole process	13	looking at the cost of the point-of-sale technology
14	in order to really do this correctly is for all of	14	compared to the revenue that you handle at
15	the membership to receive a packet with the old	15	point-of-sale, it doesn't seem like the most
16	bylaws, amendments, and the new bylaws, and any new	16	advantageous ratio to spend that kind of money.
17	amendments that are proposed, and it is a very large	17	MS. WILSON: So the point-of-sale
18	task to prepare all of this for the entire	18	technology will charge us under 3 percent per
19	membership. And I did not physically have that kind	19	transaction to use a credit card. And what it will
20	of time to devote to such a large undertaking. I	20	allow us to do is have good accountability at the
21	want to be sure it is done correctly without any	21	beach with the staff to say that this \$40 is for a
22	errors or mistakes, and I think that if anyone here	22	trailer fee, not for a clicker.
23	on the membership would like to help us as a	23	MR. GABLE: I understand accountability.
24	volunteer, that would be wonderful because we all	24	MS. WILSON: And then on the cash side, the
25	give endless amounts of hours to the membership, and	25	banks are now starting to charge us on cash, and
	30		32
1	I think it's thoughtless and thankless for someone	1	less than 1 percent is not apples to apples, but
2	to think that we aren't really working hard at this	2	overall, the fees that we plan to use this square
3	and trying to do our all.	3	technology and there is no monthly fee, it's \$50 for
4	So I don't bear any negative comments about	4	the hardware, and then it's less than 3 percent per
5	Ron Graham because I feel like he's been very	5	charge. So where the \$200 a year comes in is the 4G
6	thorough and going through everything line item by	6	phone, the phone service, 4G connectivity so we
7	line item with me.	7	don't have to pay for wi-fi at the beach.
8	MR. BALAGNA: The process is that the	8	MR. GABLE: I understand accountability,

13	anything about articles of incorporation. The	13	it that would be saved that makes the beach more
14	notice and all that, that goes out to the meeting,	14	efficient. Timekeeping also is a part of it. So it
15	has to say these are our articles and we're going to	15	allows us to improve technology with the way the
16	change our articles to say this. After we've	16	beach operations are being performed, in addition to
17	changed the articles we can now go ahead and try to	17	collecting credit cards, which we hope will be a

19	MS. PETERS: Thank you, Steve.	19	Moving on to the legal fees, are you
20	•	20	MR. GABLE: The cost-to-revenue ratio isn't
20	MR. GABLE: Did we vote yet on the	20	
22	point-of-sale technology?	21	very good, whether we care or not.
22	MS. WILSON: Yes.	22	MR. BABCOCK: I think the way to look at
	MR. GABLE: Did it approve?		it and this is all new to me too. But I think
24	MS. WILSON: Yes. MR. GABLE: I was just wondering, how much	24	the way to look at it is there is no cost benefit to the fireworks, there's no cost benefit to a lot of
25		1 2 7	The tireworks, there's no cost penetit to a lot of

6	MR. SHAVER: What is the cost benefit to	6	MR. BABCOCK: With lighting, the best way

We'd also like to propose that we add up to seven security cameras on the beach so that we can keep an eye on the beach when it's closed and see what's going on as it relates to the gate and boats and things of that nature. We'd like to continue on with the dock improvements by replacing boards where needed and repainting and resurfacing. We already talked about the two additional pram racks, and we'd also like to add solar lights on to the north and south docks so you can see better at nighttime.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	<pre>MR. 9	different or if this is last year, but next year	9	this meeting, they have no idea why you're
10	people are	10	constantly changing this, and I think it would
11	MS. WILSON: So are you proposing that we	11	confuse and upset them. So I think it needs to be a
12	just always pay in arrears?	12	straight fee, and we can discuss whether we fix it
13	MS. HEPBURN: Well, I understand that you	13	next year and then move forward, or whether it's
14	have to catch up now.	14	just an annual fee and we're always paying in
15	MS. WILSON: Yes.	15	arrears.
16	MS. HEPBURN: If we weren't paying in	16	MS. MURRAY: Why don't we just always do it
17	arrears in the first place, I would always be	17	in arrears because last year you guys weren't sure
18	willing to pay that year forward. So I propose that	18	it was going to happen, then if say in two years
19	we send something out next year saying here's our	19	somebody says "we're not doing it anymore," you
20	plan for the fireworks, this year you're paying	20	haven't already billed everybody then you don't have
21	arrears and forward, and moving forward you will be	21	to give credits.
22	charged \$15 every year. And I think we should just	22	MS. GABLE: Well, I see value in term
23	move forward with that plan, unless you decide to	23	contracts because usually they're less expensive.
24	change it, and then let us know and we're no longer	24	So a two-year contract is likely less expensive than
25	paying for fireworks or whatever it is. But trying	25	a one-year contract. So it might have cost us \$5

3	MR. SHAVER: It was the first-time thing	3	calendar, right, their revenue, where they're going
4	last year that got put on by the Lake Association,	4	to be. So I kind of understand it.
5	which then we participated in. It was the first	5	MR. FINN: Well, one thing I wanted to ask,
6	year last year, and that's the way we did it. So at	6	is, I had received a letter that stated just
7	the moment, we have a proposal by Steve for two	7	recently that I owe \$20 for the fireworks, then I
8	years.	8	noticed on the sheet tonight it says they're \$15.
9	MR. BALAGNA: I think it was seconded,	9	MR. SHAVER: Last year, as the membership
10	right?	10	we approved a \$20 fee for the 2016 fireworks, which
11	MR. SHAVER: It was seconded by the Gables.	11	we would charge in arrears
12	So if there is any other discussion on that for	12	MR. FINN: Oh, 2016.
13	anybody?	13	MR. SHAVER: Yes. And now the
14	MR. BABCOCK: What Michelle is saying is,	14	proposal's
15	rather than pay 30 bucks next year, can't we pay 15	15	MS. PETERS: That's why this is listed
16	bucks next year and 15 bucks the following year? Is	16	under new business.
16 17	bucks next year and 15 bucks the following year? Is that what you're saying, Michelle?	16 17	under new business. MR. SHAVER: This would be for going
17	that what you're saying, Michelle?	17	MR. SHAVER: This would be for going
17 18	that what you're saying, Michelle? MS. GABLE: It's confusing. I say that we	17 18	MR. SHAVER: This would be for going forward, \$15.
17 18 19	that what you're saying, Michelle? MS. GABLE: It's confusing. I say that we pay the same amount every year. And I understand we	17 18 19	MR. SHAVER: This would be for going forward, \$15. MR. FINN: Well, my only question would be
17 18 19 20	that what you're saying, Michelle? MS. GABLE: It's confusing. I say that we pay the same amount every year. And I understand we don't always want to pay in arrears, so if we vote	17 18 19 20	MR. SHAVER: This would be for going forward, \$15. MR. paying \$15 every year.

MR. SHAVER: Yeah, but we can't put the

to, and one is, we're not going to have control of

how high this will keep going every year because

	52		
1	53 part of it is going to be according to what the fees	1	55
2	are for the Sheriff's Department and the company	2	treasurer or who's set up to monitor how much others
3	that's putting it on, and I'm not sure	3	are putting in towards whatever it is, 20 or \$22,000?
4		4	
	who else is involved in doing the fireworks. But		MR. SHAVER: So the Lake Association so
5	those fees are going to increase every year.	5	obviously there are several beach associations and
6	And number two: The second part of my	6	all the homeowners. The Lake Association
7	question is if we get involved in doing other things	7	incorporates all the property owners on the lake,
8	with the lake, which I think would be fun, however,	8	which we're one of. So we're one of those boats,
9	if those start getting added on, I mean, are we in	9	one of the people in that there is a treasurer of
10	five years, six, seven years, going to be paying	10	that group who collects the money, who also collects
11	\$400 instead of our \$200 now? Because this is just	11	the money for the sheriff, for example, and that
12	going to continue climbing the more we add on. And	12	money goes into that account and then gets paid out.
13	my point is there are seniors who are on limited	13	So I get an e-mail copy of it, okay; what did we
14	budgets, although, most people may not realize it,	14	collect in, what did we spend? Based on the
15	but there are, in these neighborhoods, and I mean	15	fireworks, that's what the numbers are read at the
16	some of this, I can just see it's going to keep	16	beginning. So we have a motion
17	going, going to where does it stop?	17	MR. BALAGNA: And a second.
18	MR. SHAVER: I joined the Lake Association,	18	MR. SHAVER: And a second to vote on for
19	I attend meetings, so our voice is heard at the	19	two years. So if we approve that we've got for two
20	in determining, we met with several companies last	20	years, if we decline it, we can make a different
21	year to determine who we gave the contract to. One	21	motion for perpetual or something. Steve Balagna,
22	of the board members will be part of it. The other	22	last comments.
23	associations do it as a volunteer not a	23	MR. BALAGNA: So here's what I heard. We
24	volunteer, they take donations and fundraisers.	24	raised 23,000, it cost 15, our beach put in 6, it's
25	MR. FINN: Right.	25	the first year we did it, we want to keep it going,
	54		56
1	MR. SHAVER: We as a board said "we already	1	so I said "okay, let's try keeping it going for two
2	spent enough time, we aren't going to do any	2	more years and see what happens, \$15 is fine or at
3	fundraisers." It was either going to be an	3	your discretion. You know that we're in as long as
4	assessment that we did, or we were doing nothing.	4	there is going to be fireworks, that's why I did
5	But it would be kind of not so good, I would say, if	5	it." I'll call the questions.
6	the whole lake pays for fireworks and we don't	6	MR. SHAVER: So I think it's time to put a
7	contribute anything as one of the larger beaches.	7	vote as Steve proposed, for \$15 in 2017, and \$15 in
8	So whatever we decide, if it's \$15, \$20,	8	2018, and like I said, up to that amount at the
9	it's up to us as an association. On the parts of	9	discretion of the board, and after that point, we
10	why do the costs keep going up: Again, it's what we	10	would vote again if we continue it.
11	choose to put into it. So if we some years decide	11	MR. BALAGNA: And perhaps go perpetual.
12	we don't want to put anything or we want to go to	12	MR. SHAVER: Or perpetual. So all those in
13	\$10, or we want to go to \$30, it's up to us and the	13	favor of that proposal?
14	association, and that's why we as the board also	14	(All say aye.)
15	decided we weren't going to put it into our annual	15	MR. SHAVER: All those opposed?
16	dues, it was going to be a special assessment that	16	(No response.)
17	we voted on on a regular basis. That way then, we	17	MR. SHAVER: Passed. Unopposed. Thanks,
18	all can see what the costs are and if it's	18	Steve.
19	worthwhile.	19	MS. PETERS: Thank you. Yes?
20	The other thing is, that the lake wanted to	20	MR. FINN: Just one more. Could we get
21	do, like, a kayak race, or doing a progressive	21	some type of accounting after this year's fireworks?
22	around the lake with all the boats, it doesn't cost	22	MS. WILSON: Sure.
23	anything. So we're not trying to add costs	23	MR. FINN: Of who is putting in what on the
24	doing any of the social items at the lake.	24	lake?
		24 25	lake? MR. SHAVER: Yeah, there is a list. It

1	57 doesn't break down, but there are some different	1	59 what it looks like? And then, third, the security
2	levels. So there is a list that I have given	2	cameras, is it going to be on the internet where
3	MR. FINN: A financial statement of some	3	everybody can see what's going on with those
4	sort.	4	security cameras?
5	MS. PETERS: Okay. I'm going to go ahead	5	MS. PETERS: No. Do you want to talk about
6	and move on to beach renovations. So we have	6	the security cameras?
7	already started to discuss the idea of security	7	MS. WILSON: Sure. So the security
8	cameras, dock lights, and two new pram racks to be	8	cameras, the idea with those is that they would be
9	built. And we also the new board will move on to	9	recording devices, and then we would be able to look
10	working with the architect perhaps that we have	10	at the video at any time. But there's no intention
11	already used. The concept was to have an open-like	11	at this time to put wi-fi at the beach. Frankly,
12	pergola, gazebo-type area in the picnic area at the	12	it's just too expensive, and you to have sign a full
13	beach, so when people are having parties down there,	13	12-month contract, you can't just have it on
14	there is a covered area where they can have food or	14	seasonally. So there is a solution. Bryan, if you
15	music for example, if they want to have lights. And	15	want to talk to that?
16	it would just make that area much more conducive to	16	MR. SHAVER: Yeah. We got one quote just
17	having parties because that's typically where we ask	17	to kind of give us our budget stuff to go forward,
18	our members to have parties when they do have one,	18	but what our proposal is: On the light post by the
19	is to have them in the picnic area. And right now	19	south dock would look at the boat entry, or the car
20	we just have picnic tables.	20	entry over there, and it would also be a wide-enough
21	So the idea of having that area is	21	lens that we could watch the beach next to us to see
22	something that a lot of people have said they would	22	which kids are coming across so we can track that a
23	really like to do, and so as a board we have been	23	little better.
24	trying to make sure we have enough money to go	24	We would propose one on the boathouse
25	forward with that. And that is one of the reasons	25	looking at the garage door where we keep all the

11	MS. MURRAY: I second that.	11	Yeah, you've got enough room there to get 40 people.
12	MS. PETERS: All in favor?	12	We have ten at our diningroom table, so that's only
13	(All say aye.)	13	four diningroom tables. So you've got room there to

16	MS. PETERS: Thank you. And then the final	16	because one of those big maples is dying.
17	one would be to come up with a proposal and speak to	17	MS. PETERS: Right. And that's what we

21	that everyone knows	21	too. I love the idea of having the pavilion because
22	MR. SHAVER: This is just the design, so	22	when we have our birthday parties down there,
23	we'd have to vote next year on spending money and	23	sometimes we run into rain. Great place to have it,
24	whatever the design looks like.	24	and then we don't have to have a rain date, right,
25	MS. PETERS: So what you would see next	25	for the family.

5 with it. Yes? it is now before that does die because you need time 5 MS. MURRAY: Question: Several of us are for that tree to grow. And that gives us shade. 6 6 7 just saying we don't know anything about what the 7 And when we have the old folks down there, as you pavilion would look like. I mean, what are we going know, my father-in-law and mother-in-law are 99 and 8 8 9 to ask them to propose? Do we have a guise or --9 100, and of course they're always complaining about 10 MS. PETERS: Well, we have a maximum size 10 the heat down there. So I would suggest that we for parties right now of 40 people, and so obviously 11 plan ahead and start planting some trees. The 11 you're not going to be able to get 40 people 12 12 reason I bring it up now, Carolyn, is when you do completely all underneath that area. But I think 13 13 the pavilion, obviously now is the time to plant for what we need to do is, we have to first of all talk trees as well, so it will be done in concert. 14 14 15 to an architect, and probably pull up our site plan 15 MS. HEPBURN: I have a question, too, about 16 and find out approximately what size could we fit in 16 the pavilion. I mean, will we still have a full 17 that area. And then what I would say is, you know, grass area? 17 we're going to have to come up with some idea of MS. PETERS: Yes. 18 18 19 what that means spacewise because we can only go so 19 MS. HEPBURN: There's no concrete there, 20 far in that area. I mean, obviously, we can't go 20 we're just putting a canopy? 21 too close to the fence, and we don't want to go out 21 MS. PETERS: I would assume that there 22 into the sandy area, so it needs to be in the grassy 22 would have to be concrete footings to support a area. It may require removing one of the trees. I wooden structure 23 23 MR. BABCOCK: She means a slab, I think. knew that would make -- yes? 24 24 MR. GUENDELSBERGER: Is there a budgeted 25 MS. HEPBURN: You're not putting any kind 25

6	trees, and I also I have a question of, again,	6	approval.
7	there is 90 percent of our people who aren't here,	7	MR. PETERS: Just a comment here. You can
8	and I know everybody's invited to the meeting and	8	ask an architect to give them certain guidelines
9	shame on them for not coming, including myself who	9	like minimally invasive structures, and stuff that
10	hasn't come for years. But I think something of	10	incorporates and integrates into the landscape and
